CUSTOMIZED CARTONS

We are able to make up any size carton (plain or printed) to meet your specific needs.

DIE CUT CARTONS

Regular Slotted Carton

All flaps have the same length, and the two outer flaps (normally the lengthwise flaps) are one-half the container's width, so that they meet at the center of the box when folded. If the product requires a flat, even bottom surface, or the protection of two full layers, a fill-in pad can be placed between the two inner flaps.

Full Overlap Carton

All flaps are the same depth, and their depth equals the width of the box. The flaps at the ends are extended so as to double over one another affording improved strength and carrying capacity. Tall boxes with a small cross sectional area (length x width) in relation to the height use FOLF to ensure box shape and rigidity. These boxes are therefore resistant to rough handling

Telescoping Tray

This consists of a lid which slides over a base. Additional strength can be achieved when the lid extends fully to cover the base. The height can be increased due the telescopic nature of the product thus allowing for varied internal volume.

Rentainer

Rentainers are a cost effective solution that can be used for bulk shipping or to replace wooden crates. They consist of a sleeve and two end caps.

007A	680mm L x 650mm W x H
007B	680mm L x 650mm W x 300mm H
008A	1100mm L x 920mm W x 550mm H
008B	1100mm L x 920mm W 300mm H
008C	1100mm L x 920mm W x 750mm H
0013A	1550mm L x 1100mm W x 1200mm H
0013D	1550mm L 1100mm W x 700mm H

PRINTED AND NON-PRINTED AVAILABLE

EDGE BOARD PROTECTORS

Made up of multiple layers of paper laminated together to form rigid right angle and cut to specific length for hand application. Edge protectors assist in protecting your product from strapping damage. CUSTOMIZED TO CLIENTS SPECIFICATIONS

FLAT SHEETS

We offer customized design solutions to meet the needs of your products, our range includes varies grades of single-face(SFK), single-wall and double-wall corrugated board. Excellent for protecting your packages and stored items.

Ideal for Interleaving & separating products.

FLAT-SH-1850	1850 X 900 (SWB)
FLAT-SH-1850DWB	1850 X 900 (DWB)

STOCK CARTONS

Single Wall Board, Double Wall Board, TVL

These are ideal for storage; transporting your goods or even if you are moving.

Stock 1 SWB	150 W x 100 L x 100 H
Stock 2 SWB/DWB	230 W x 150 L x 150 H
Stock 3 SWB/DWB	250 W x 150 L x 250 H
Stock 4 SWB/DWB	300 W x 230 L x 300 H
Stock 5 SWB/DWB	450 W x 300 L x 300 H
Stock 6 SWB/DWB	610 W x 450 L x 300 H
Stock 7 SWB/DWB	450 W x 450 L x 300 H
TVL Stock 2 SWB	500 W x 450 L x 145 H
TVL Stock 4 SWB	300 W x 230 L x 300 H
TVL Stock 6 SWB	500 W x 400 L x 450 H
TVL Stock 9 SWB/DWB	500 W x 400 L x 655 H
TVL Stock 12 SWB/DWB	500 W x 400 L x 780 H

Hanger Cartons

These boxes are used for safeguarding clothes in transit or storage and it works with a hanger rod that fits securely into a box and enables you to hang your garments up.

The rods are sold separately.

Length : 558mm
Width : 432mm
Height : 1012mm

File Cartons

We carry on hand boxes for storage and archiving of paperwork.

Well suited for the office environment often acquired by lawyers and insurance companies.

We can make them up to any size and board specification.

Length : 210mm
Width : 210mm
Height : 285mm

PRINTED AND NON-PRINTED AVAILABLE

PALLETS

- Wooden Pallets
- Plastic Pallets
- Pallet Boxes
- Printed Pallets
- Fumigated Pallets
- Non-fumigated Pallets

PRINTED AND NON-PRINTED RECYCLED, CLEAR RECYCLED AND VIRGIN

AIR PAD FILM

An extremely versatile and durable packing product made with the same film process as Void Film air pillows.

Each perforated section is divided into air chambers making it flexible enough to wrap, bend and fold the film around products for multiple uses and optimum protection.

CUSTOMIZED TO CLIENTS SPECIFICATIONS

BIN LINERS

We stock both clear and black refuse bags.

Available in Heavy and light duty.

Size : 750mm W x 950mm L

ALSO CUSTOMIZED TO CLIENTS SPECIFICATIONS

BUCKETS AND JERRY CANS

Up to 1 lt Jerry Cans.

250ML Bucket

500ml Bucket

1 lt Bucket

2 lt Bucket

5 lt Bucket

10 lt Bucket

20 lt Bucket

25 lt Bucket

CLEAR STOCK BAGS

These clear stock bags are made from Virgin grade polythene, making these suitable to be used with food products. These bags are available in 25 and 50 micron. Various closure methods can be used for these bags, such as heat sealing, taping or wire ties.

CUSTOMIZED TO CLIENTS SPECIFICATIONS

CARRIER BAGS

These Carrier bags are made from high density polyethelene, which gives the bag considerable strength.

These bags are produced to government specification and legislation and are 30 micron in thickness.

Our stock lines are plain white, yet a specialised order may be requested for print options on these bags.

Mini Carrier Bags	210 (140) x 440
Handy Carrier Bags	235 (140) x 550
Maxi Carrier Bags	280 (160) x 545

CUSTOMIZED TO CLIENTS SPECIFICATIONS

PRINTED AND NON-PRINTED RECYCLED, CLEAR RECYCLED AND VIRGIN

COURIER DOCUMENT BAGS

Courier bags are made from 100% recyclable material, are puncture resistant and has a document pouch as well as a permanent adhesive flap which makes it tamper proof.

CUSTOMIZED TO CLIENTS SPECIFICATIONS

PALLET WRAP

We stock a variety of cast / co-ex and mono layer blown stretch films.

They can be manufactured to any colour, length, width and thickness.

Can be supplied on standard 76.6mm core or 40mm extended core.

Normal core and custom core to any mic and export pallet wrap, printed machine rolls, hand wrap rolls.

PLASTIC BAGS CUSTOMISED

- Block Bottom Bags
- Bottom Sealed Bags
- Perforated Bags
- Side Sealed Bags
- Spine Sealed Bags

All bags can have any type of handle.

Micron bags come in any colour.

SHEETING & TUBING

Sheeting is often used to protect the tops of pallet from moisture and dirt. Lay Flat material can be customised to be used as form fill and seal material with printing to be used on your machine. This can be a cheaper alternative to individual pouches.

Tubing is useful if you have various sizes of products you wish to package. Instead of purchasing many different size

plastic bags, you can decide on the length of the bag you require by sealing and cutting off at the interval you need with a heat sealer and cutter.

CUSTOMIZED TO CLIENTS SPECIFICATIONS

SHRINK FILM & ULTRA SHRINK FILM

Shrink film is used for more industrial type packaging. Common uses are to shrink cold drink cans and bottles, cartons of eggs. LDPE Shrink may be customised to various widths and thicknesses, however we cannot go thinner than 35mic and the narrowest is 70mm.

Ultra Shrink films are ideal for high clarity and display value applications. These films are used on picture frames, games, mobile phones and many other products.

CUSTOMIZED TO CLIENTS SPECIFICATIONS

PRINTED AND NON-PRINTED RECYCLED, CLEAR RECYCLED AND VIRGIN

UPHOLSTERY BAGS

We offer a variety of these massive bags for the packaging of:

- Couches
 - Cupboards
 - Single mattress
 - Double mattress
 - King mattress
 - Queen mattress
- or any other large products.

CUSTOMIZED TO CLIENTS SPECIFICATIONS

VACUUM BAGS

Vacuum bags are manufactured from polyurethane or vinyl materials. Used for vacuum packaging whereby oxygen is removed from the bag to extend shelf life of a product.

This also reduces the volume of the contents of the package.

STANDARD BAGS NOT CUSTOM

ZIP LOCK BAGS

Mini Grips or Zip lock bags are manufactured from LDPE (Low Density Polyethylene). They are relatively clear in appearance with various uses. Mini Grips are often used in industries such as pharmaceutical and hardware.

Seal at the top with a zip lock.

CUSTOMIZED TO CLIENTS SPECIFICATIONS

PRINTED AND NON-PRINTED AVAILABLE

AIROTHENE

Airothene is low density polyethylene foam, with good shock absorption characteristics and insulating properties. Very flexible and durable due to the cellular structure.

The closed cell structure ensures dust, water and wind resistance.

(slit, bags, sleeves, sheets, different thickness, edge guards, Uprofiles, air-o-net, pads, pouches, laminated under flooring)

BUBBLETHENE

Bubblethene is a new alternative to Airothene.

Consisting of 2mm airothene which is laminated to 6mm bubble wrap.

Perfect for furniture wrapping coverings and having no delamination .

(slit, bags, sleeves, sheets,)

BUBBLE WRAP

Bubble wrap is popular and economical, containing numerous small air cushions which is designed to protect fragile goods and act as a cushioning.

(slit, anti-static, bubble bags, bubble sleeves, bubble sheets, different size bubbles)

CUSHION KRAFT

Cushion Kraft is a bubble product with either one or both sides laminated with kraft paper. Often used for protection of furniture during transporting.

(single side cushion, double sided, spun bond, laminated)

PRINTED AND NON-PRINTED AVAILABLE

JIFFY BAGS

Tough and reliable padded mailing envelopes made from quality puncture and tear resistant kraft paper and filled with recycled paper fibres for maximum cushioning.

PALLET WRAP

We stock a variety of cast/co-ex and mono layer blown stretch films.

They can be manufactured to any colour, length, width and thickness.

Can be supplied on standard 76.6mm core or 40mm extended core.

(Normal core and custom core to any and export pallet wrap, printed machine rolls, hand wrap rolls.)

CUSTOMIZED TO CLIENTS SPECIFICATIONS

POLYSTYRENE COOLER BOXES

Made from expanded polystyrene (EPS). These cooler boxes have very high insulating properties that makes them ideal for temperature controlled packaging and ideal for use in the catering industry and transportation of medical supplies.

As these polystyrene boxes are made from 98% air and just 2% Styrene not only are they extremely lightweight but they are highly resource efficient and sustainable.

AVAILABLE IN VARIOUS SIZES / CUSTOMIZED TO CLIENTS SPECIFICATIONS

WIGLEY WORMS & POOL NOODLES

1/3 meter Polystyrene wigley worms used for void fill.

Size: 1/3 Cubic Meter Bag

Pool Noodles available in various colours.

DOUBLE SIDED TAPE

Foam: Double sided tape coated with a solvent based acrylic adhesive.

GDA: Cloth based double sided tape with a high performance synthetic rubber based adhesive.

RDA: Double coated OPP tape with solvent acrylic adhesive.

DUCT TAPE

Laminated polyethylene cloth, single coated with a high tack synthetic rubber adhesive.

FILAMENT TAPE

Filament tape or strapping tape is a pressure-sensitive tape used for several packaging functions such as closing corrugated fiberboard boxes, reinforcing packages, bundling items, pallet unitizing, etc.

FLOOR MARKING TAPE

Floor marking tape is also often known as demarcation tape. It is a thick coloured PVC tape usually in widths of about a few inches. A common application for this tape is to make the yellow lines often found in factories and warehouses.

FOIL TAPE

A high tensile strength aluminium foil backing, combined with a high performance solvent acrylic adhesive, protected by an easy-release silicone release paper.

PRINTED AND NON-PRINTED AVAILABLE

FREEZER TAPE

Ideal for labeling and sealing frozen foods.

Special low-temperature adhesive sticks easily and tight on even bulky, odd shaped items.

Apply at or near room temperature to a dry surface Works well on paper, film, foil.

GUM PAPER TAPE

Gummed Paper Tapes are water activated. The gum backing becomes part of the -cardboard carton and results in a very tough tamper proof package

MASKING TAPE

Masking tpe is a type of pressure sensitive tape made of a thin and easy-to-tear paper, and an easily released pressure sensitive adhesive.

PACKAGING TAPE

Fabricated from premium quality raw material, these tapes ensure excellent adhesion and high durability.

Including Hot Melt and Cold Melt.

PRINTED TAPE

Printed packaging tape can be used as an advertising, security or branding tool. Printing your company name, logo and contact information on packaging tapes creates brand awareness.

PRINTED AND NON-PRINTED AVAILABLE

PUC TAPE

Available
in various
colours

REFLECTIVE TAPE

Single layer prismatic polyester construction with adhesive backing.

- Outstanding long distance night time visibility.
- No edge sealing required and no cracking.
- Resistant to power washing and most industrial cleaning processes.
- Easy to cut, handle and apply.

STATIONARY TAPE

Also known as “Cellophane Tape” or “Sticky Tape”, stationary tape is used for general purposes and it can be found in most offices nowadays. This multi-purpose tape is small and compact, easy to use and it comes in handy for fixing torn paper or for a variety of crafts and similar paper-related projects.

The stationary tapes are very economical and they are made from polypropylene along with acrylic adhesive.
